Drug Abuse

The following is a list of commonly used drugs and the risks associated with their use.

1. 7.0

Alcohol Abuse

Alcohol effects vary from person to person. This depends on a varietytofsaincluding, how much you drink, how often you drink, your age, health status, etc. Alcohol impairs brain functioning and motor skills. If use continues over time, it increases the risk of heart, liver and pancreas damage. There is also strong evidene of an associatio between alcohol drinking and several types of cancer.

The National Institute on Alcohol Abuse and Alcoholism provides additional information regarding health risks, along with information about mixing alcohol with certain medications. Their w.67-9.66heir wa,im.34
