As a part of the admission progress, applicants to the Dental Hygiene Program are required to observe in a dental office setting. Applicants are instructed to contact the office(s) of their choice and report during times arranged with office personnel.

While an applicant is not required to purchase a uniform for this activity, he/she is expected to dress neatly and conservatively (no jeans or extreme styles). Applicants are encouraged to ask appropriate questions and to observe office protocol.

The willingness of dentists and their staffs assist students in the career selection process is greatly appreciated.

If there are any questions, a dental hygiene instructor can be reached by calling 402-461-2468 or toll-free 800-742-7872 ext 2468.

I can verify that _____ has spent _____ hours of observation in my office and appears to be interested in a career as a dental hygienist.
